**To:** Paisley-Jones, Claire [Paisley-Jones.Claire@epa.gov]; Hendrick, Lindsey [hendrick.lindsey@epa.gov]  
**Subject:** Conversation with Paisley-Jones, Claire

Paisley-Jones, Claire 2:31 PM:

I'm not sure you need those specific sites

Paisley-Jones, Claire 2:45 PM:

sorry i forgot you don't have two screens!

Paisley-Jones, Claire 2:45 PM:

good job :)

Hendrick, Lindsey 2:45 PM:

haha! it's ok!

Hendrick, Lindsey 2:45 PM:

thanks

Paisley-Jones, Claire 2:45 PM:

i'm glad i didn't say anything snarky ;)

Paisley-Jones, Claire 2:45 PM:

in the message

Hendrick, Lindsey 2:45 PM:

(rofl)

Paisley-Jones, Claire 2:45 PM:

we might take a quick look at the specific sites

Paisley-Jones, Claire 2:46 PM:

i don't remember looking at those when we talked

Paisley-Jones, Claire 2:46 PM:

you might have more info than you need

Hendrick, Lindsey 2:47 PM:

Ok sounds good. I'll make some edits today and send back to the team

Paisley-Jones, Claire 2:47 PM:

perfect

Paisley-Jones, Claire 2:47 PM:

we can also look at them after we go over the footnotes and stuff later today if there is time

Hendrick, Lindsey 2:47 PM:

ok!

Paisley-Jones, Claire 9:35 AM:

morning!

Paisley-Jones, Claire 9:35 AM:

have you made updated to that label guidance?

Hendrick, Lindsey 9:35 AM:

Morning

Paisley-Jones, Claire 9:35 AM:

i want to make sure we look at all those see issues

Hendrick, Lindsey 9:35 AM:

I haven't done anything yet

Paisley-Jones, Claire 9:35 AM:

ok, so if i open the version that was on the invite that will be current-ish?

Hendrick, Lindsey 9:36 AM:

Yeah. I'm going to make the soil changes this am then I was going to follow up with everyone about the buffers. But I won't change the see issues until we talk.

Paisley-Jones, Claire 9:36 AM:

ok cool

Hendrick, Lindsey 9:37 AM:

Can I ask an extended SUUM question

Hendrick, Lindsey 9:37 AM:

?

Paisley-Jones, Claire 9:37 AM:

sure

Hendrick, Lindsey 9:38 AM:

Ok, cool. I'm working on aldicarb. It's not registered for use in every state. In table 2, I'm only including the states where it is registered (so the subset is different for each crop). Does that make sense?

Hendrick, Lindsey 9:38 AM:

Or, does it make sense to do it that way?

Paisley-Jones, Claire 9:39 AM:

so you're just indicating where it's registered for each crop? and then not including non-registered states in the surveyed but no usage reported section?

Hendrick, Lindsey 9:40 AM:

Right--table 1 has the list of states where it can be used and table 2 is only those states.

Paisley-Jones, Claire 9:40 AM:

ya, we wouldn't want to list states were it can't be used

Hendrick, Lindsey 9:40 AM:

Ok great

Paisley-Jones, Claire 9:40 AM:

just like we don't list crops where it cant be used

Hendrick, Lindsey 9:41 AM:

Got it. That made sense to me but wanted to make sure we're all on the same page! Thank you!!

Paisley-Jones, Claire 9:41 AM:

totally!

Paisley-Jones, Claire 9:41 AM:

do you want to set up a time to chat about the see issues later?

Hendrick, Lindsey 9:41 AM:

Sure, I'll add something to the calendar

Paisley-Jones, Claire 9:41 AM:

also, i don't think i've gone over final qc and making sure things aggregate correctly with you in a long time

Paisley-Jones, Claire 9:42 AM:  
we should do that soon

Hendrick, Lindsey 9:42 AM:  
Ok that would be good!

Paisley-Jones, Claire 9:42 AM:  
that's why i harp on limiting the see issues all the time

Paisley-Jones, Claire 9:42 AM:  
they can really screw with aggregation

Paisley-Jones, Claire 9:42 AM:  
and aggregation is a really important part of the reports

Paisley-Jones, Claire 9:43 AM:  
and so is the standard vocab

Paisley-Jones, Claire 9:43 AM:  
as a corollary, imagine how much easier label selection would be if all the labels were extracted the same way in OPPIN...

Paisley-Jones, Claire 9:44 AM:  
and sites weren't listed 12 different ways on labels

Hendrick, Lindsey 9:44 AM:  
Yeah, no that makes sense.

Paisley-Jones, Claire 9:44 AM:  
the listing would be MUCH shorter, and you could be sure when you already had something

Paisley-Jones, Claire 9:44 AM:  
now imagine how much worse the oppin listings would be if you introduced free text

Paisley-Jones, Claire 9:45 AM:  
after we give the reports to EFED and HED they further condense them

Paisley-Jones, Claire 9:45 AM:  
and if we were consistent, it's a much simpler/clearer job

Paisley-Jones, Claire 9:46 AM:  
do you mind if i make some comments on this workbook for us to talk about later?

Hendrick, Lindsey 9:49 AM:  
Go for it!

Paisley-Jones, Claire 9:49 AM:  
ok cool

Paisley-Jones, Claire 9:49 AM:  
thanks :)
